## WHAT NEXT!?

# KINGDOMS OF MEN DESTROYED

## BY A STONE - DANIEL 2

**Y**our Bible says that what's next is Armageddon. But not the apocalyptic worldwide doom of popular culture. Armageddon is a Bible word that describes a fierce battle in Israel that will involve many nations — some of whom are already embroiled in violence and chaos. Armageddon will follow a time of trouble such as the world has never seen before. Are the events of great crisis in our world the start of this? Perhaps they are simply chance events that will somehow subside and fade away? The Bible says they won't!

But don't despair. The Bible is the book of hope for everyone. It can be trusted as a guide book for living and for charting the future. The illustration opposite is taken from the Old Testament book of Daniel, where a towering image was shown by God in a dream to Nebuchadnezzar, the proud monarch of the great Babylonian empire. In the dream a stone struck the huge metallic warrior on the feet and he crumbled to powder. The stone then grew in it's place until it became a great power that soon filled the earth. This speaks of the incredible impact of the return of Jesus Christ—suddenly and swiftly to the earth. Jesus said that earthquakes and great troubles would precede his return. He has a great work to do in constructing God's Kingdom on earth. What can you do now to prepare for this great event?
